The Star Spangled Banner

Oh say, can you see, by the dawn's early light,
What so proudly we hail'd at the twilight's last gleaming?
Whose broad stripes and bright stars, thro' the perilous fight,
O'er the ramparts we watch'd, were so gallantly streaming?
And the rockets' red glare, the bombs bursting in air,
Gave proof thro' the night that our flag was still there.
Oh say, does that Star-spangled Banner yet wave
O'er the land of the free and the home of the brave?

On the shore, dimly seen thro' the mists of the deep,
Where the foe's haughty host in dread silence reposes,
What is that which the breeze, o'er the towering steep,
As it fitfully blows, half conceals, half discloses?
Now it catches the gleam of the morning's first beam,
In full glory reflected now shines on the stream.
'Tis the Star-spangled Banner, oh, long may it wave
O'er the land of the free and the home of the brave!

Oh thus be it ever, when free men shall stand
Between their lov'd homes and the war's desolation!
Blest with vict'ry and peace, may the heav'n-rescued land
Praise the Pow'r that hath made and preserved us a nation!
Then conquer we must, when our cause it is just,
And this be our motto: "In God is our trust!"
And the Star-spangled Banner in triumph shall wave
O'er the land of the free and the home of the brave.

DEDICATION

Principal's Message

The graduates of our secondary schools will find themselves entering an economic and social world vastly different from that in which many of their predecessors found themselves. Hostilities ceased shortly after the last year's commencement time. Since then the nation has been trying to readjust itself to a lasting peace.

Many of your friends who graduated before you were required to become active participants in a nation at war. Now they are being granted the opportunity to continue their studying or take part in vocational pursuits for which they had prepared themselves. It is most gratifying to know that many of you also have the desire to further your education so that later you may seek gainful employment in fields of your selection. The attitude which you have displayed toward your school work should assist you greatly in fulfilling this ambition.

It has been my privilege to be associated with your class very closely during the past year. The spirit of cooperation that you have displayed in your various undertakings has been outstanding. I hope you will carry this attitude of sincerity of purpose into your future endeavors. As you leave this school, the best wishes of the faculty and myself go with you.

HAROLD A. CLARK, *Principal*

If Mildred Parry played the cello,
And Dotty Dennen had no fellow?
If Gerty weren't to be a wife,
And Edith got no kick from life?
If Francis Condon liked the Navy,
And Polly's fellow's name were Davy?
If Billy Niethold couldn't shoot,
And Georgy Tolman played the flute?
What if all these things were true;
Oh dear, oh dear, what would we do?

"It Ain't Necessarily So"

BANG ! !CRASH ! ! ! ! BOOM ! ! ! !

It had been there, and then suddenly it was gone. Just like that. That's what happened way back in 1999 A. D. when science, politics, and civilized peoples got ahead of themselves in their mad rush for supreme power. Now there was just silence. Only deep, penetrating silence. Emptiness and void.

What was that? Had something stirred? Had anything survived? Slowly, foggily, as if in a dream, the seemingly lifeless bodies lifted themselves and stared through glassy eyes at one another and the nothingness that had once been their world. And by the most incredible coincidence, the queerest twist of fate (call it what you may), the only survivors were . . . . . yes, the only survivors were the class of 1946 ! !

Thus began the era of HOBBQ (don't try to pronounce it), the new millenium.

Suddenly some irresistible force, perhaps their close bond of friendship, drew this handful of people together to plan their new world. It would be difficult; many obstacles would have to be overcome; but with their super-sensitive minds, their highly intellectual realm of thought, the class of '46 would survive.

The days flew quickly by as life began once more. Each person had his task to fulfill and went about it in an enthusiastic manner. The watch had begun ticking; and all the parts were in perfect working order. Bruce Bailey, the personification of perfect sign painters, began working industriously, printing in his inimitable style, directing everyone in all walks of life. All over could be seen THIS STAIRWAY DOWN, UP STAIRWAY ONLY. Nearby in the newly built swimming pool Mary Connors, beautiful swimming instructor, could be seen demonstrating her latest feat against the forces of nature, remaining underwater by means of her magnetic personality. A regular patroness of Mary's school, in which Barbara Condon was the most popular English teacher, was Selma Wasserman, nursemaid to the little H. O. boys of Gertie Schnurr, wife, mother, and founder of the Fish and Chips Club, who took them there only to get the little brats off her hands so she could

solve the daily problems in arithmetical phenomena, given by Professor Frog Bartlett, mad scientist who invented the electro-magnetic slide rule with which he was trying to locate himself in relation to the man in the moon. He was aided by the only woman physicist, Judith Paul, who, insisting that his calculations were wrong, preferred to work the problems out, thus spending the rest of her life finding herself.

Despite the small population there were some differences of opinion on important topics of the day. Walking along the plutonium streets, one often saw the great orator, Calvin Einis (who had followed the speeches of Cicero avidly) on his little soap box passionately propounding his theories on the "Pros and Cons." Somehow, though, he never seemed to reach the point. Among other notable debators was the famous team of Phyllis Rodman, brilliant lawyer and mediator, and Raymond Letourneau, owner of Priscilla, the fastest flying horse of the millenium, who spent hours pleasantly discussing this and that. Life was sweet.

Every month Stan Grue, idol of all, appeared, causing many hearts to beat wildly when he passed his diamond-studded comb through his beautifully waved hair. This new appeal was called Dynamic Tension. Then George Tolman, official water boy, ran through the crowd that gathered, selling his magic brew to restore them to normalcy. Following closely on his heels, Phyllis Friberg, owner of the Futura Cafeterias, sold her famous fried burgs to the delight of all, while Barbara Chadd, bowlin' champ, exhibited her remarkable powers of control, after which the ace photographer, John Wright, who was developing a new five dimension moving picture complete with all six senses, showed his famous collection of the female of the species.

Although this was a new world, more advanced, better managed, more progressive, the small daily tasks of the people were still necessary. Every morning Robert Parrish in his flying horse and buggy would drop milk from the exclusive farm of Spear and Parrish, monopolizers of all agricultural advancement, where, by pressing different buttons on the mechanical cows, all the dairy products could be obtained plus a few ice creams sodas and such. George Sweet, the veterinarian with modern ideas, lived with the cows to see how they ticked. Regularly Bill Niethold set out, armed with his electric dart-gun to hunt for food. At the end of the week he returned, laden down with rare delicacies such as nightingales' tongues and roast peacocks.

In the business world many important industries and professions were rapidly becoming prominent in the eyes of the people. The ultra de luxe plastic department store left nothing to be desired. It was run under the able leadership of Russell White, promising young business manager, who was endowed with a phenomenal ability for making money. Employing the glamorous young secretary, Dorothy Dennen, Russ showed that he had an eye for figures. New fashions were designed by Mademoiselle Araby Morgan, who had recently distinguished herself by creating a new gown from one yard of material. Models for Mademoiselle were Misses Shirley Harris and Frances Savino who had been chosen as "The Girls Who Know Their B. B. Q.'s." Daily Socialite Nancy Scott, pinup girl of the police force, sent her maid for new creations and had a well-stocked wardrobe of chrome yellow through no fault of hers. Butler's Beauty Barn, run by the efficient Lorraine Butler, catered to all the young lovelies of HOBBQ (I said, "Don't try to pronounce it") and thrived because of the beauty potion, discovered accidentally by Miss Butler as she fell into a mud puddle. Frequenting the salon, was Constantia Brown, popular piano virtuoso and teacher, who was leading a double life and thus was constantly under Miss Butler's able care. Speaking of music, Jim "Licorice Stick" Montgomery, jazz fiend, was finding some real competition in Fiddlin' Mildred Parry. How those notes flew! Almost every night Elliott Aronson, traveling salesman, could be seen accompanying Dave "Woof-Woof" Paul, on the trail of

that little blonde bombshell Barbara Feist, receptionist at the office of Dr. Hank A. Molar who was featuring a new plastic gum, guaranteed to last forever and demonstrated by that experienced chewer, Pauline Krager.

In the literary field two outstanding personalities were foremost. Miss Edith Nowers, lecturing on the "Art of Keeping Still," was rapidly becoming famous as the only person who never ran out of words; and Dorothea Johnson was recognized for her unlimited vocabulary and literary style, having completed a series of essays on "Latin—Is It Worth It?", and was working diligently as historian.

Although there were no other peoples, and a state of sublime peace presided over the inhabitants, protection was provided by the combined efforts of Francis Condon, noted authority on figures (mathematical, of course), who was building up a navy; Roy Chaplin, who was a one man army; and Emily McDonald, president of the Temperance League, who boasted of her Scotch ancestors.

When each day came to a close, oil king Colonel Sport Markt sent his right-hand man, Bill McGrath, to reach into the heavens and turn on the lights. More often, though, he would not turn them on because he figured he could work better in the dark.

As night slowly descended over this young world, strange rays could sometimes be seen coming from the work shop of Norman Williams, who kept his own peculiar hours, trying to communicate with other planets of the universe.

Yes, that's the way it happened. And to this day the class of '46 has remained alone in their new world unmolested and undiscovered by any other peoples.

The Junior Class

On May 3, the junior class gave a very successful Junior Prom under the direction of Miss Chase, their class adviser. The decorations consisted of a panel design done in apple blossoms which decorated the walls of the gymnasium in soft spring colors.

With conditions returning to prewar standards the juniors found it easier this year than last to obtain materials for an attractive setting. Another important factor contributing to their success was the number of available orchestras. Having the patronage of the alumni once again added greatly to everyone's enjoyment of the evening.

We, the graduating class, wish them equal success in the activities of their senior year.

The Sophomore Class

Under the capable guidance of Mr. Matheson, class adviser, and the class officers, the sophomore class has established an outstanding record in school activities this past year.

The play given by Miss Nyquist's English class, the first of its kind to be presented as an assembly program in recent years, was greeted with much laughter and applause by the student body and faculty who agreed unanimously that the play was well selected, well cast, and well done.

With its colorful decorations and delicious refreshments the Hop, held on May 17, proved to be a gala occasion and afforded every one an enjoyable evening.

We wish the sophomores luck; and we leave with the assurance that the activities of their junior and senior years will be equally outstanding.

The Freshman Class

This year, thanks to Mr. Clark, the freshman class has been able to contribute its share to the social calendar of the school. Their dance, on March 22, proved to be a very satisfactory "Freshman's First" and established a new precedent for future classes.

Since Mr. Weldon, their class adviser, left in the middle of March, Mr. Clark helped the capable class officers to complete their business for the year.

In their large class there should be varied talents from which to draw for successful activities in their sophomore, junior, and senior years.

The Yearbook Staff

When we learned that our former printer would be unable to do our book, we were worried lest we would not be able to find another, due to unsettled labor conditions. We were, therefore, very pleased and relieved to learn that The Weymouth Gazette and Transcript could take on another one.

Editors, who form the backbone of the yearbook, were elected; staffs were chosen; suggestions for new additions were submitted; and everyone went to work gleefully dreaming up a super book. Many new features were added, including a full page of single shots of our star basketball players, end paper drawings, class officers apart from group pictures, and many informal shots which go toward making our book one we hope you will enjoy owning as much as we have enjoyed producing.

The National Honor Society

The National Honor Society has chapters in 2,882 schools throughout the country, and membership in this organization is the highest honor any junior or senior can receive. Mr. Clark, our high school principal, is sponsor of our local chapter. Membership is based upon scholastic achievement, service, character, and leadership. To be eligible a student must be in the upper third of his class academically. From that group only fifteen per cent of the senior class and five per cent of the junior class are selected by faculty vote on a secret ballot.

A most impressive ceremony was held this year when the following were inducted: Bruce M. Bailey, Mary V. Connors, Barbara M. Feist, Judith E. Paul and Russell S. White from the senior class and Cornelia M. Erkelens and John F. Leary from the junior class. Barbara A. Chadd and Edith M. Nowers, who were elected in their junior year, performed the induction which consisted of an analysis of each of these qualities — scholarship, leadership, service and character — and the lighting of a candle to represent each. The ceremony closed with the formal welcoming of the new members and the presentation of pins.

The Orchestra

This year the orchestra has participated in many of the school activities. Under the able direction of Mr. Frederick W. Kempf the small group practiced faithfully and devoted much time and effort to preparing a concert. Handicapped by a loss of members from last year's senior class, they were faced with an insufficient number of players. However, by uniting with several members of the Foxboro High School Orchestra, they made a splendid showing, and established an admirable record for themselves.

The Glee Club

This year the Glee Club has been completely reorganized under the capable leadership of Mr. Frederick W. Kempf, our musical director. Composed of sixty students from grades ten through twelve, the group has met twice a week, rehearsing strenuously for a public concert. The students have taken advantage of this opportunity as a medium for their musical expression. By singing works of the great masters and many familiar folk songs they have gained a better and more sincere appreciation of all types of music. Every member worked hard and faithfully for the success of the concert, held April 12th, the proceeds of which laid the foundation for a scholarship fund to be used by the most deserving musical student from future senior classes.

Basketball

The varsity basketball season this year was very successful with a record of twelve victories and three defeats.

Enthusiasm due to the return to a full-time post-war schedule of games and the return from the Navy of former coach, Mr. James Weldon, carried the boys through many victories; but a little overconfidence brought them a defeat from Oliver Ames which, since it spoiled their undefeated record, was their biggest disappointment of the year.

The Brockton Tournament, unfortunately, was scheduled at a time when the team was lagging. The first game with Marshfield was easily won, but in the second they were beaten by the Howard High School team. However, the winning of the trophy at Brockton is not the most important thing in a basketball season. More important are the spirit of cooperation within the team and the enthusiastic support of the student body both of which Sharon can justly be proud of possessing.

Intramural basketball has also had a good season with interest running high and competition keen. The training which these boys have received under the able supervision of athletic director, Mr. Edward Koskella, is extremely important, for it has not only given the boys excellent training in fair play and good sportsmanship but it has also laid the ground work for future winning varsity teams.

Our Cheerleaders

After an absence of three years we were glad to welcome back cheerleading as a club under the able supervision of Miss Conley. The girls with their never ending vim and vigor added a great deal of pep to the games, and won the favor of all students by their quick actions and winning smiles. Following the team throughout the season, they cheered them on to victory and boosted the morale of both players and spectators. Their gay outfits consisting of maroon skirts and sweaters and gold blouses met with the admiring approval of all who saw them.

We hope in the future cheerleading will maintain the prominent place it has won this year in the hearts of the students at Sharon High.

Third Row, left to right: *Thomas Markt, Joseph Shapiro, George Russell, Arthur Stevenson, Earl Whitney, Donald Bailey, Lewis Hankins, John Dennen, Francis Schnurr, John Gomez, Schuyler Clapp, Guy Littlefield, Willard Goodman.*

Baseball

This year's baseball season started off with a bang with 47 boys turning out for try-outs. Although we have not been able to have a baseball team for the past five years due to the war, we expect, as the yearbook goes to press, that, with the excellent training under Mr. Edward Koskella, coach, the team, captained by the able George Markt, will stand up well in the competition provided by the South Shore High School Baseball Association, the Western Division of which it is a member. The schedule of games follows:

April 26—Sharon at Holbrook
April 30—Sharon at Canton
May 3 —Foxboro at Sharon
May 7 —Stoughton at Sharon
May 10—Sharon at North Easton
May 14—Mansfield at Sharon
May 17—Canton at Sharon
May 21—Sharon at Foxboro
May 24—Sharon at Stoughton
May 28—North Easton at Sharon
May 31—Sharon at Mansfield
June 4 —Holbrook at Sharon
